ExistingRule:

C 2c To determine the color choice,any two opposing players (one from each side) each shoot four 94

C 2b

To determine the color choice,any two opposing players(one from each side)each shoot four (4) discs to the far deadline.The players shoot alternately:first YELLOW (or alternate color),then BLACK,then YELLOW,etc.The first three discs of each player are for practice and are removed progressively;the last disc of each player is left on the court.As between these last two discs,the disc nearest the linedetermines who shall have color choice.etc.

Change:

To determine the color choice,any two opposing players(one from each side)each shoot two (2) discs to the far deadline. The players shoot alternately:first YELLOW (or alternate color),then BLACK,then YELLOW,etc.The first disc of each player is for practice and are removed;the second disc of each player is left on the court.etc. no further change.

Rationale:

To speed up the lagging process,less interference with play on adjoining courts,and gee whiz, you just played a whole game on that color.
