ExistingRule:

RULE 20C Over the backstop.

Change:

REinstate the over the backstop rule!!!!!!!!!!!!

Rationale:

I have been hit on my mfoot at least once in a tournament in StCloud by an anature who shoots every clearing shot with a venage. There is no need for such conduct. There weer two women complaining about the same player at another tournament. I have been made aware that I could have gone to the tournament directer and ask for a referee to watch this player, but I did not to make an enemy since I only just started playing.

Thank you,
